

Flavious Coffee, PMP

Flavious Coffee, PMP is the President of PMI Zimbabwe Chapter. He is an electrical engineering and project management professional with over 15 years of experience in Power Infrastructure Projects. He currently works for a multinational technology company, where he is responsible for implementing power infrastructure projects across Zimbabwe. Flavious has a passion for sustainable development in general and renewable energy in particular. Flavious strongly believes that the greatest societal value that projects can deliver, is to leave behind a better planet for the future generations.
