

Phumza Dyani

Phumza Dyani has spent over 18 years in various roles in the ICT industry and is a partner in the Southern African region for the Regional Consortium of Experts for Development (RCD Africa). She has worked for the major Mobile Operators in the continent, MTN and Vodacom, and has operated across spheres in her career. She is currently employed as the Chief Marketing and Sales Officer for Broadband Infracore, an organisation with a mandate of connecting the rural and underserved communities of South Africa to enable universal access.

She prides herself with having witnessed the evolution of Telecoms from the era of 2G right up to the current emergence of 5G Technologies. She is fully conversant in policy discussions in Emerging Technologies like AI, IOT, Blockchain and Robotics. She is a Member of the Global Women in AI, a member of Women in STEM Leaders.

She holds an MBA from Bond Australia and a myriad of other Global Leadership Qualifications. Phumza is a Global Speaker on a vast number of topics in ICT, with a special passion for the involvement of women in ICT. She has a passion for Emerging Technologies and has spoken in International ICT platforms like the ITU (International Telecommunications Union). She is a Columnist, as well as the Voice for SHE-Community's Global Digital Magazine called SHE-Insight, a Movement focused on progressing the Gender Parity narrative. Above these accolades, Phumza is a true Advocate to empowerment of women and is a Researcher for the Corporate Guidebook to achieving UN SDGs (4,5 and 9). She is a recipient of the GCPIT Top 100 Global Women Leaders Award for 2021 and has been recently appointed as Ambassador South Africa for the: US Presidential Service Centre.
