

Sivuyile Peter

Broadband Infraco

Sivuyile Peter is the Senior Manager: Capital Programme Management for Broadband Infraco, responsible for portfolio management of various projects and programmes. Sivuyile has more than 20 years' holistic work experience in the project and programme management space coupled with ICT network technical skills, business strategy and digital transformation skills.

Sivuyile joined Broadband Infraco from MTN Group, where he worked as a Senior Manager: Program Management, responsible for Capital Project Group policies and process development, Back Office transformation planning and Enterprise Resource Planning (ERP) implementation at MTN Ghana, Cameroon and Benin.

Prior to that, Sivuyile worked for Vodacom SA implementing Radio Network projects. His other employment tenures were held at Eskom Transmission Telecoms where he was responsible for planning, implementing and maintaining fibre network projects, for Sentech and Telkom SA looking after radio network planning and maintenance.

He holds a BSc. Honours degree from University of Pretoria, a Master of Business Leadership (MBL) from UNISA School of Business Leadership and currently studying towards MSc. in Project Management at University of Pretoria.

As a strategic thinker, Sivuyile takes keen interest in strategic planning and has contributed impactfully to both MTN and Broadband Infraco Strategy Planning programmes. He is a member of various Broadband Infraco committees including Design Review, Capital Investment Steering Committee, Bid Adjudication Committee and Sales Pipeline and Revenue Committee.
