

## **CHIARA CEI: ZAMANI DIRECTOR OF HERITAGE REGENERATION**

Chartered Structural Engineering and PMI Certified Project manager, her work experience in Oman started in early 2005 in the field of restoration of UNESCO cultural heritage sites in Salalah for the Office of The Advisor for Cultural Affairs. On behalf of the Structural Engineering Department of the University of Pisa she was leading the conservation and consolidation activities, from the planning to the works on site, where she had to train and coordinate initially unskilled labour workforce to carry out major consolidation activities in compliance with UNESCO standards. She also actively led a training program in conservation activities for students and fresh graduates from the Structural Engineering Dep. of the University of Pisa.

She took a PhD. in Civil Engineering with a focal research on Conservation and Structural Consolidation of Oman Built Heritage.

She moved to Muscat in 2009 with an Engineering Consultancy Company, for which she successfully led the start up and the business development, working as Project Manager in major infrastructures, mixed used redevelopments and architectural projects.

Driven by a true passion for Omani Heritage, she joined Zamani in early 2018, as Director of Heritage Regeneration, directing the Company Programmes and organizing and leading the Project Management Office.
