

## **Bio**

Ananth Natarajan has over 20 years of experience in several global offshore EPC projects, including in research and development, business acquisition, systems engineering, product development, construction management, and project management. Ananth has several patents in offshore wind turbines and blockchain technology.

Currently, he has a startup that has developed several AI and data analytics methods for capital projects. His startup is also building cybereum, a DLT (Web3/blockchain) platform for collaboratively managing complex projects with multiple stakeholders. He holds BEng & MS degrees in Mechanical Engineering, an MBA from IESE, and an MSc in major programme management from the University of Oxford.

He is a professional engineer (PE), a project management professional (PMP), and a Chartered Engineer (CEng) with the Institute of Mechanical Engineers (UK). He has led multi-disciplinary teams in several complex projects and technology/product development efforts. He is part of the Project Management Institute (PMI) AI experts' network.
